

# Emmanuel Dornubari Kabari

---

## Work Experience

### Fitness Staff

PALMARS HOSPITAL LIMITED, NOV – DEC 2023

- Audiometry Examination
- Clerking
- Data Entry
- Spirometry Examination

### Penetration Testing Intern/ IT Support Intern

Rivers State ICT Department (Tech-Creek), MAY/2021 – SEPT/2021

- I Automated network processes using Python and configuration templates for enhanced reusability and efficiency
- I Conducted comprehensive penetration tests on network infrastructure, identifying vulnerabilities and creating detailed reports
- I Provided expert technical support for software and hardware maintenance, ensuring seamless system operation and user assistance.
- I Proficiently installed Windows OS and software on Windows machines, adhering to best practices.

## Education

### *Diploma in Software Engineering*

AltSchool Africa, Remote

April/2022 – June/2023

- Comprehensive Diploma in Software Engineering with a focus on Backend Engineering track.
- Proficient in computer science principles, algorithms, data structures, and problem-solving techniques.
- Mastered HTML, CSS, and JavaScript for frontend development collaboration.
- Advanced Python-focused course on backend engineering, covering API development and database management using Flask.
- Actively engaged in open-source projects on GitHub, making valuable contributions and collaborating with the global developer community.
- Demonstrated exceptional proficiency in technical writing for clear and coherent software documentation.
- Cultivated strong interpersonal skills, teamwork, and adaptability for effective collaboration in fast-paced environments.
- Excelled in Agile methodologies for iterative development and adaptive project management.

## Skills

### Soft Skills

- Time Management
- Teamwork
- Problem Solving
- Flexibility
- Critical thinking
- Effective Communication

### Technical Skills

- Python (Programming Language)
- Reactjs
- Flask
- JavaScript
- PostgreSQL
- REST APIs
- Git
- HTML
- Cascading Style Sheet (CSS)

## PROJECTS

### Scissor

#### Description

The Shorten URL Service is a web application that allows users to shorten long URLs and create custom short URLs. It provides a user-friendly interface for generating short URLs, tracking link performance, and managing custom domains. Built with Python and Flask, Flask-Restx and Consumed with Axios

### Regghista

#### Description

A Student Management REST API service built with Python and Flask-Restx

#### GitHub Repository

<https://github.com/Kabari/Regghista>

## *Bachelor of Science in Computer Science*

**University, Port Harcourt, Nigeria**

November/2017 – February/2023

- Completed Bachelor of Science in Computer Science with expertise in programming, data structures, and software development.
- Coursework in web development, database management, and operating systems.
- Equipped with the expertise to design and implement efficient solutions for complex technical challenges.

## **Certifications**

*Andela React Learning Program | Andela*

**Issued: October 2023**

**Credential ID: 6ebcda18-b189-48df-91d6-3b6636c519d4**

*Technical Support Fundamentals | Coursera*

**Issued: June 2022**

**Credential ID: ZAR5QR5B765P**

*The Bits and Bytes of Computer Networking | Coursera*

**Issued: June 2022**

**Credential ID: QJMLRNZEWMFR**

*HCIA- Datacom | Huawei*

**Issued: November 2021**

**Credential ID: 010100101603808458251298069**

*Programming Foundations: Databases | LinkedIn*

**Issued: October 2021**

*Programming Foundations: Fundamentals | LinkedIn*

**Issued: October 2021**

*Succeeding in Web Development: Full Stack and Front End | LinkedIn*

**Issued: October 2021**

## Blogga

### **Description**

Blogga is the world-class blogging app for everyone, to post articles, thoughts and ideas. Built with Python, Flask, HTML and CSS. It demonstrates Flask core routing, Authentication and Basic CRUD operation in Flask

### **GitHub Repository**

<https://github.com/Kabari/Blogga>
